

Transparency Metrics intern

Project Title	Transparency Metrics intern
Project Summary	Research compile, and create metrics regarding any mention of certain Intelligence Community (IC) and Office of the Director of National Intelligence (ODNI) topics and people from 1/1/2015 to the present. Turn metrics into professional, finished reports shared with senior IC leaders and Congress.
Country	United States
Agency	Office of the Director of National Intelligence
DoS Office	N/A
Post	N/A
Section	N/A
Number of Interns	4

Project Description

ODNI has committed to a new Transparency initiative for the Intelligence Community (IC), which was first announced in Jan, 2015. ODNI wants to create detailed reports and metrics on the Transparency Initiative. The information will be searched using web tools available to the interns, and should be collected into a master Excel spreadsheet, then the information must be analyzed, and reports will be created from the spreadsheet data, to include charts and graphs, and narrative analysis.

The reports should include statistics on where this information was mentioned, how many times it was mentioned, and get metrics on which organizations reported on the topic, what their view of the topic was (i.e. can the reporting be considered 'positive' or 'negative'.) The reports should also include recommendations on how ODNI can increase their representation in the media, with suggestions on where and how to focus effort to get the best results on Transparency coverage.
